Dear Friend,

President Obama, in cooperation with Russian President Medvedev, signed an agreement on Monday to reduce American and Russian nuclear arsenals by at least 25 percent. This is similar to the [legislation](#) that Congressman McGovern and I introduced to negotiate reductions in American and Russian total nuclear inventories to fewer than 3,000 by the year 2015. Our resolution also calls for the enhancement of the Cooperative Threat Reduction Program (Nunn-Lugar) by an additional \$1 billion per year (the Nunn-Lugar program secures and dismantles weapons of mass destruction in former Soviet Union states). For more information on our legislation, read my [press release](#).

As you may know, I am also a strong advocate for a robust missile defense system and support its full implementation. I supported President Reagan's vision for a missile defense system in the 1980s. Many in Washington said it was impossible to build such a system, but we are closer to making President Reagan's vision of a missile defense system a reality. In addition to supporting funding for the Missile Defense Agency (see [roll call 455](#)), I am also a co-sponsor of the [Protect the Homeland from North Korean and Iranian Ballistic Missiles Act](#) which would deploy ground-based interceptors as part of the missile defense system.

I am interested in knowing your opinion on this development. **Please take a moment to answer the short survey below** and let me know what you think.

Sincerely,

Daniel E. Lungren
Member of Congress
